

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

EXPLANATORY NOTES

This Safety Data Sheet has been compiled in accordance to the ECHA Guidelines (2020), European Regulation (EC) No. 1272/2008 (CLP), and Globally Harmonized System of Classification and Labelling of Chemicals (GHS) (2021).

This Safety Data Sheet in its entirety applies to the product as a packed concentrate.

All packed products (sizes up to 5l) contain tamper proof heat induction seals.

Section 3 Hazard classification refers to the 100% raw material pure substance classification in the mixture and not the product mixture or the dilutions.

Section 16 Hazard statements are as per ECHA Pure Substance Classification and refers to the 100% raw material pure substance classification as specified in Section 3 and not the product mixture or dilutions.

SECTION 1: Chemical product and company identification

Product identifier

| | |
|---------------|--|
| Product form | Mixture |
| Trade name(s) | F10CL Disinfectant F10CL Veterinary Disinfectant F10CL Avian Disinfectant Concentrate F10CL Reptile Disinfectant Concentrate F10 Veterinary Disinfectant Concentrate F10 Avian Disinfectant Concentrate F10 Reptile Disinfectant Concentrate F10 Veterinary Professional Disinfectant Concentrate |

Relevant identified uses of the substance or mixture and uses advised against

| | |
|--------------------------|--|
| Relevant identified uses | An antimicrobial disinfectant solution used for the disinfection of hard surfaces, equipment and air spaces. |
|--------------------------|--|

Details of the supplier of the safety data sheet

| | |
|-----------------------------|--|
| Manufacturer | Health and Hygiene (Pty) Ltd. |
| Address | Corner Leader and Hoefsmid Street, Stormill Ext. 10, Roodepoort, 1709, South Africa |
| Telephone number | +27 (0) 11 474 1668 |
| E- mail address | info@healthandhygiene.co.za / info@f10products.com / info@f10products.co.uk |
| Emergency contact number(s) | +27 (0) 11 474 1668 |

SECTION 2: Hazards identification

Classification of the substance or mixture

| Classification according to Regulation (EC) No 1272/2008 (CLP), Hazard class | Hazard Category | Classification procedure |
|--|-----------------|-----------------------------|
| Causes serious eye irritation, H319 | 2A | Study data (OPPTS 870.2400) |
| Chronic aquatic toxicity, H411 | 2 | GHS classification |

Label elements

Labelling according to Regulation (EC) No 1272/ 2008 [CLP]

Hazard pictogram(s)

GHS07

GHS09

Signal word

Warning

Hazard statements

H319 — Causes serious eye irritation.

H411 — Toxic to aquatic life with long lasting effects.

Precautionary statements

- P101 — If medical advice is needed, have product container or label at hand.
- P102 — Keep out of reach of children.
- P103 — Read label before use.
- P264 — Wash hands thoroughly after handling.
- P280 — Wear correct eye safety equipment when handling this mixture.

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

| | | |
|--------------------|---|--|
| P305 + P351 + P338 | — | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P337 + P317 | — | If eye irritation persists: Get emergency medical help. |
| P273 | — | Avoid release to the environment. |
| P391 | — | Collect spillage. |
| P501 | — | Dispose of container in suitable manner as is required by country legislation. |

Supplemental Hazard information

Classification as per label dilution

| Label dilution | Hazard Classification | Classification procedure |
|----------------|-----------------------|--------------------------|
| Dilution 1:200 | Non-hazardous | GHS classification |
| Dilution 1:50 | Non-hazardous | GHS classification |
| Dilution 1:20 | Non-hazardous | GHS classification |

Other hazards

None

SECTION 3: Composition and information on ingredients

Substances

Not applicable

Mixtures

| Substance name | CAS No EC No | Classification according Regulation (EC) No 1278/ 2008 [CLP] (100% raw material pure substance classification) | Formulated Concentration (packed product) (% w/w) |
|--|-------------------------|---|--|
| Di-decyl dimethyl-ammonium Chloride | 7173-51-5 230-525-2 | Acute Tox.; 3; H301/ Skin Corr.; 1B; H314 Aquatic Acute; 1; H400 | 0.1 – 1.0 % |
| Benzyl (C12-16) Alkyl Dimethyl Ammonium chloride | 68424-85-1 270-325-2 | Acute Tox.; 4; H302/ Skin Corr.; 1B; H314 Aquatic Acute; 1; H400/ Aquatic Chronic; 1; H410 | 0.1 – 1.0 % |
| Poly (hexamethylene biguanide) Hydrochloride | 27083-27-8 605-233-7 | Acute Tox.; 4; H302/ Acute Tox.; 2; H330 Eye Dam.; 1; H318/ Skin Sens.; 1B; H317/ Carc.; 2; H351/ STOT RE1; H372/ Aquatic Acute; 1; H400/ Aquatic Chronic; 1; H410 | 0.01 – 0.1 % |
| Ingredients determined not to be hazardous | | | Balance |

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

SECTION 4: First aid measures

Description of first aid measures

General information

In case of concern or doubt, call a doctor or physician.

Following inhalation

Move the person to fresh air. Contact a physician if required.

Following skin contact

Remove all contaminated clothing immediately. Wash affected area thoroughly with soap and water. Wash contaminated clothing before reuse or discard.

Following eye contact

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses if present. Continue flushing for at least 15 minutes, or until advised to stop by the Poisons Information Centre or a doctor. Seek immediate medical attention.

Following ingestion

Do not induce vomiting. Wash out mouth thoroughly with water.

Most important symptoms and effects, both acute and delayed

Symptoms/ effects following inhalation

None

Symptoms/ effects following skin contact

May be some irritation and reddening of the skin which will moderate after some time.

Symptoms/ effects following eye contact

May be some pain and reddening of the eye which will moderate after some time.

Symptoms/ effects following ingestion

Ingestion of the concentrate may cause irritation to mouth, throat and digestive tract.

Indication of any immediate medical attention and special treatment needed

If you feel unwell, seek medical advice immediately and show label if possible.

Note to the doctor/ physician

Treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing media

Use appropriate fire extinguisher for surrounding environment.

Unsuitable extinguishing media

Do not extinguish with water under high pressure.

| | | | | | | | |
|----------|---------------------------|----------|------------|----------------|-------------------|-------|---------------------|
| Product: | F10CL Disinfectant | Version: | 002 | Revision Date: | 2022-08-20 | Page: | Page 5 of 12 |
|----------|---------------------------|----------|------------|----------------|-------------------|-------|---------------------|

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

Special hazards arising from the substance or mixture

Hazardous combustion products

This product is non-combustible. However, heating can cause expansion or decomposition leading to violent rupture of containers.

Advice for firefighters

Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) operated in positive pressure mode. Fight fire from safe distance and location.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Wear appropriate personal protective equipment and clothing to prevent exposure to clothing, skin and eyes. Increase ventilation.

For emergency responders

Have a copy of the SDS available. Use appropriate personal protective equipment.

Environmental precautions

In case of entry into sewers or waterways, inform the responsible authorities in accordance with relevant regulations.

Methods and material for containment and cleaning up

For containment

Contain the spill with appropriate material and techniques.

For cleaning up

Clean spillages immediately. Do not dilute material but contain it. Place inert absorbent material onto spillage. Collect the material and place into a suitable container.

Reference to other sections

Refer to SECTIONS 8 and 13 for exposure control/ personal protection equipment and disposal considerations.

SECTION 7: Handling and storage

Precautions for safe handling

Avoid skin and eye contact. Keep containers sealed when not in use. Use in well-ventilated area. Wash hands and other exposed areas with soap and water prior to eating, drinking and smoking. Handle in accordance with good hygiene and safety procedures.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area. Protect from direct sunlight. Store in suitable, labelled containers. Keep containers tightly closed. Ensure that storage conditions comply with applicable local and national regulations.

Specific end use(s)

Refer to SECTION 1 for identified end use(s).

| | | | | | | | |
|----------|---------------------------|----------|------------|----------------|-------------------|-------|---------------------|

SECTION 8: Exposure controls and personal protection

Control parameters

Occupational exposure limits

No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing medical conditions and/ or allergic reactions and should be kept to the least possible levels.

Biological limit values

No biological limits allocated.

Exposure limits at intended use

DNEL/ PNEC – values — No data available

Exposure controls

Appropriate engineering controls

Handle in premises with good ventilation. Eye rinsing facilities shall be available at the workplace.

Personal protection equipment

Eye and face protection

Wear eye protection when diluting the concentrated product.

Skin protection

None required. Care should be exercised to prevent contact with skin when handling the concentrated product.

Respiratory protection

No respiratory protection required.

Environmental exposure controls

Refer to SECTION 12 for limitations on environmental exposure.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

| | | |
|---------------------------------|---|--------------------------|
| Appearance | — | clear, colourless liquid |
| Odour | — | slight natural odour |
| Odour threshold | — | not available |
| Melting point/ freezing point | — | not available |
| Boiling point | — | 100°C |
| Flammability | — | not combustible |
| Lower and upper explosion limit | — | not available |
| Flash point | — | not available |
| Auto-ignition temperature | — | not available |
| Decomposition temperature | — | not available |

| | | | |

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

| | | |
|--------------------------|---|----------------------|
| pH (undiluted) | — | 7.5 |
| Viscosity | — | not available |
| Solubility in water | — | soluble |
| Partition coefficient | — | not known |
| Vapour pressure | — | not available |
| Density | — | 1.0g/cm ³ |
| Vapour density (air = 1) | — | not available |

Other information

No other data available

SECTION 10: Stability and reactivity

Reactivity

The product contains no substances which could lead to hazardous reactions during normal use, handling and storage.

Chemical stability

Stable when handled and stored under normal ambient conditions.

Possibility of hazardous reactions

No hazardous reactions when handled and stored under normal ambient conditions.

Conditions to avoid

Protect from direct sunlight.

Incompatible materials

Do not mix with anionic detergents and other chemicals.

Hazardous decomposition products

No known hazardous decomposition products.

SECTION 11: Toxicological information

Information on hazard classes as defined in Regulation (EC) No 1272/ 2008 & EPA Guidelines**

| | | | | | | |
|----|------------|---|---------------|------------|---|-------------------|
| ** | Category 1 | — | High Toxicity | Category 2 | — | Moderate Toxicity |
| | Category 3 | — | Low Toxicity | Category 4 | — | Very Low Toxicity |

Data as per non-diluted Packed Concentrated Product

| | | |
|-------------------------------|---|--|
| Acute toxicity (oral) (rat) | — | Toxicity > 10 000 mg / kg (EPA category 4) |
| Acute toxicity (dermal) (rat) | — | Toxicity > 20 000 mg / kg (EPA category 4) |

| | | | | | | | |
|----------|---------------------------|----------|------------|----------------|-------------------|-------|---------------------|

|----------|---------------------------|----------|------------|----------------|-------------------|-------|---------------------|

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

| | | |
|-----------------------------------|---|--|
| Skin corrosion/ irritation | — | Causes no skin irritation |
| Serious eye damage/ irritation | — | Causes eye irritation |
| Respiratory or skin sensitisation | — | Causes no skin sensitisation |
| Germ cell mutagenicity | — | None predicted based on data for the raw materials |
| Carcinogenicity | — | None predicted based on data for the raw materials |
| Reproductive toxicity | — | None predicted based on data for the raw materials |
| STOT-single exposure | — | No known hazards for occasional exposure |
| STOT-repeated exposure | — | No known hazards for repeated exposure |
| Aspiration hazard | — | Not expected to be an aspiration hazard |
| Inhalation toxicity | — | > 2 mg / L for 4-hour exposure |

Information on other hazards

None

SECTION 12: Ecological information

Toxicity

| | | |
|------------------------------|---|---|
| Acute (short-term) toxicity | — | Toxic to aquatic life. |
| Chronic (long-term) toxicity | — | May cause long-term adverse effects in the aquatic environment. |

Persistence and degradability

Product is readily biodegradable, and the product is neither persistent nor problematic metabolites are produced. The product is hydrolytically stable, and hydrolytic processes do not contribute to its degradation in the environment, it is neither volatile nor is it expected to be present in the air. It can be considered immobile in soil.

Bioaccumulative potential

No additional information available.

Mobility in soil

Not mobile in soil.

Results of PBT vPvB assessment

None of the substances in this mixture is considered to be persistent, bioaccumulating and toxic or considered to be very persistent and very bioaccumulating.

Endocrine disrupting properties

No additional information available.

Other adverse effects

No other additional information available.

| | | | | | | | |

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

SECTION 13: Disposal considerations

Waste treatment methods

Waste should not be disposed of by release to sewers. Dispose of this material and its container in a safe manner in accordance with relevant and applicable local and national regulations and/ or legislation. Avoid release to the environment.

SECTION 14: Transport information

UN number or ID number

None allocated. Not classified as dangerous goods.

UN proper shipping name

None allocated.

Transport hazard class(es)

None allocated.

Packing group

Not applicable.

Environmental hazards

Not applicable.

Special precautions for user

None necessary.

Maritime transport in bulk according to IMO instruments

Not applicable.

SECTION 15: Regulatory information

Safety, health and environmental regulations/ legislation specific for the substance or mixture

Classified as Hazardous according to SANS 10234:2019 Globally Harmonised System of Classification and Labelling of Chemicals (GHS).

Safety, health and environmental regulations/ legislation specific for the substance or mixture:

South Africa — NRCS VC8054:2017 — Compulsory Specification for Chemical Disinfectants

South Africa — SANS 636:2013 — Environmental studies (corrosiveness to steel) & Storage stability studies

South Africa — SANS 1853:2020 — Safety of raw materials

United Kingdom — HSE Health Directorate HD D4 (Biocides and Pesticides Assessment Unit) — Safety of raw materials

During international product registration (refer countries below), of the F10[®] product range, all safety, health and environmental aspects are considered by the relevant authorities.

SAFETY DATA SHEET

Product: F10CL Disinfectant

Revision date: 2022-08-20

Key literature references and sources for data

Primary data for the calculation of the hazards has preferentially been taken from the official European classification list, Regulation (EC) 1272/ 2008 Annex I, as well as from actual study data performed on the product itself.

Classification and procedure used to derive the classification for mixtures according to Regulation (EC) 1272/ 2008 [CLP]

All classifications were done as per available test data based on Health Effects Guideline OPPTS and EPA Guidelines or as per official European classification as listed per CLP and GHS regulations.

Relevant H- and EUH-statements (number and full text)

The following refers to the 100% raw material pure substance classification

| | | |
|------|---|--|
| H301 | — | Toxic if swallowed |
| H302 | — | Harmful if swallowed |
| H314 | — | Causes severe skin burns and eye damage |
| H317 | — | May cause an allergic skin reaction |
| H318 | — | Causes serious eye damage |
| H330 | — | Fatal if inhaled |
| H351 | — | Suspected of causing cancer |
| H372 | — | Causes damage to organs through prolonged or repeated exposure |
| H400 | — | Very toxic to aquatic life |
| H410 | — | Very toxic to aquatic life with long lasting effects |

Training advice

All personnel handling this product must be made aware of the content of the SDS and hazards of the product if any.

Further information

Not applicable.
